

Senior Editor for *Science* Magazine

Join the dynamic editorial team at *Science* magazine. We are seeking a Senior Editor interested in science and/or education policy, to work in our Washington, DC, USA or Cambridge, UK office.

We are looking for an individual with broad interests including education, and a background in science policy and the social or political sciences. The editor would be involved in solicitation and editing of perspectives and policy forums related to education (K-12, undergraduate, and graduate) and other policy areas. An advanced degree (PhD) would be desirable, but we will also consider a mixture of scholarly and other experience.

Five or more years of work experience required (post-doctoral or publishing experience preferred). The ideal candidate will have an appreciation of the challenges of science communication, outstanding writing/editing skills, and an affinity for the creative use of graphics to convey technical ideas. This individual must also have the ability to work in a team and within weekly deadlines and page limits. He/she should have experience in communicating to audiences outside their specialized community.

Responsibilities include soliciting manuscripts; managing the review, selection, and editing of manuscripts; working with authors on revisions; and fostering contacts and communication with the scientific community. Candidates are expected to travel to relevant meetings.

Science is published by the AAAS, the world's largest scientific membership organization. Visit us at www.sciencemag.org and www.aaas.org. EOE. Non-smoking work environment.

For consideration send a cover letter and resume, along with your salary requirements, to
